

A CELESTIAL PROJECT MEETS THE WORLD

On July 5th, 2018, the Oronos Foundation was founded by three members: Marianne Amsler, Eva Hemm and Stefan Sieberer. Despite their different lifestyles, personalities and countries of origin – Germany, Austria and Switzerland – they are united by a common vision: they strive to preserve our beautiful planet and to support the animals and plants, children and people living on it. In a world where humanity is in dire need of assistance – where resources are unevenly distributed, circumstances are shifting, and living together faces profound challenges – we need hearts that beat as one and a consciousness that transforms visions into actions.

As the saying goes: When we take but a single step toward life, it meets us with countless strides. **The universe is with us.**

For More Happiness and Peace in the World

Be part of a unique movement: The Oronos Foundation serves the earth – fostering international understanding, protecting children, people, nature and animals. We build peace centers around the world because we believe that only a peaceful community can ensure the long-term survival of our planet. We believe that peace and happiness are possible. 100% of the proceeds and donations to the foundation go directly into our projects. And thus into the future of the planet, for the benefit of the children of this earth. Find out what the Oronos Foundation is doing in the world on the following pages. We would love to have you join our project.

EMBRACE GOODNESS AND RELEASE HAPPINESS

Following the motto “make a person happy each day, and you will have changed the future of this planet”, we are dedicated to creating a better world. A world where we live together in peace, respect, and dignity. Where children can grow playfully and where the precious resources of our earth are cherished and preserved.

WHAT MAKES US SPECIAL:

The members of the foundation’s board are as diverse and vibrant as life itself. What brings us together is the desire for unity and to be in harmony with the planet. Our vision is so deeply rooted in our hearts that we transcend our own limits and turn visions into actions. We trust in the power of community that is greater than ourselves.

Peace Centers Around the World:

PERU - LIVING CLEAN, GETTING HEALTHY

Where? The peace center in Peru is located in the middle of the Amazon rainforest.

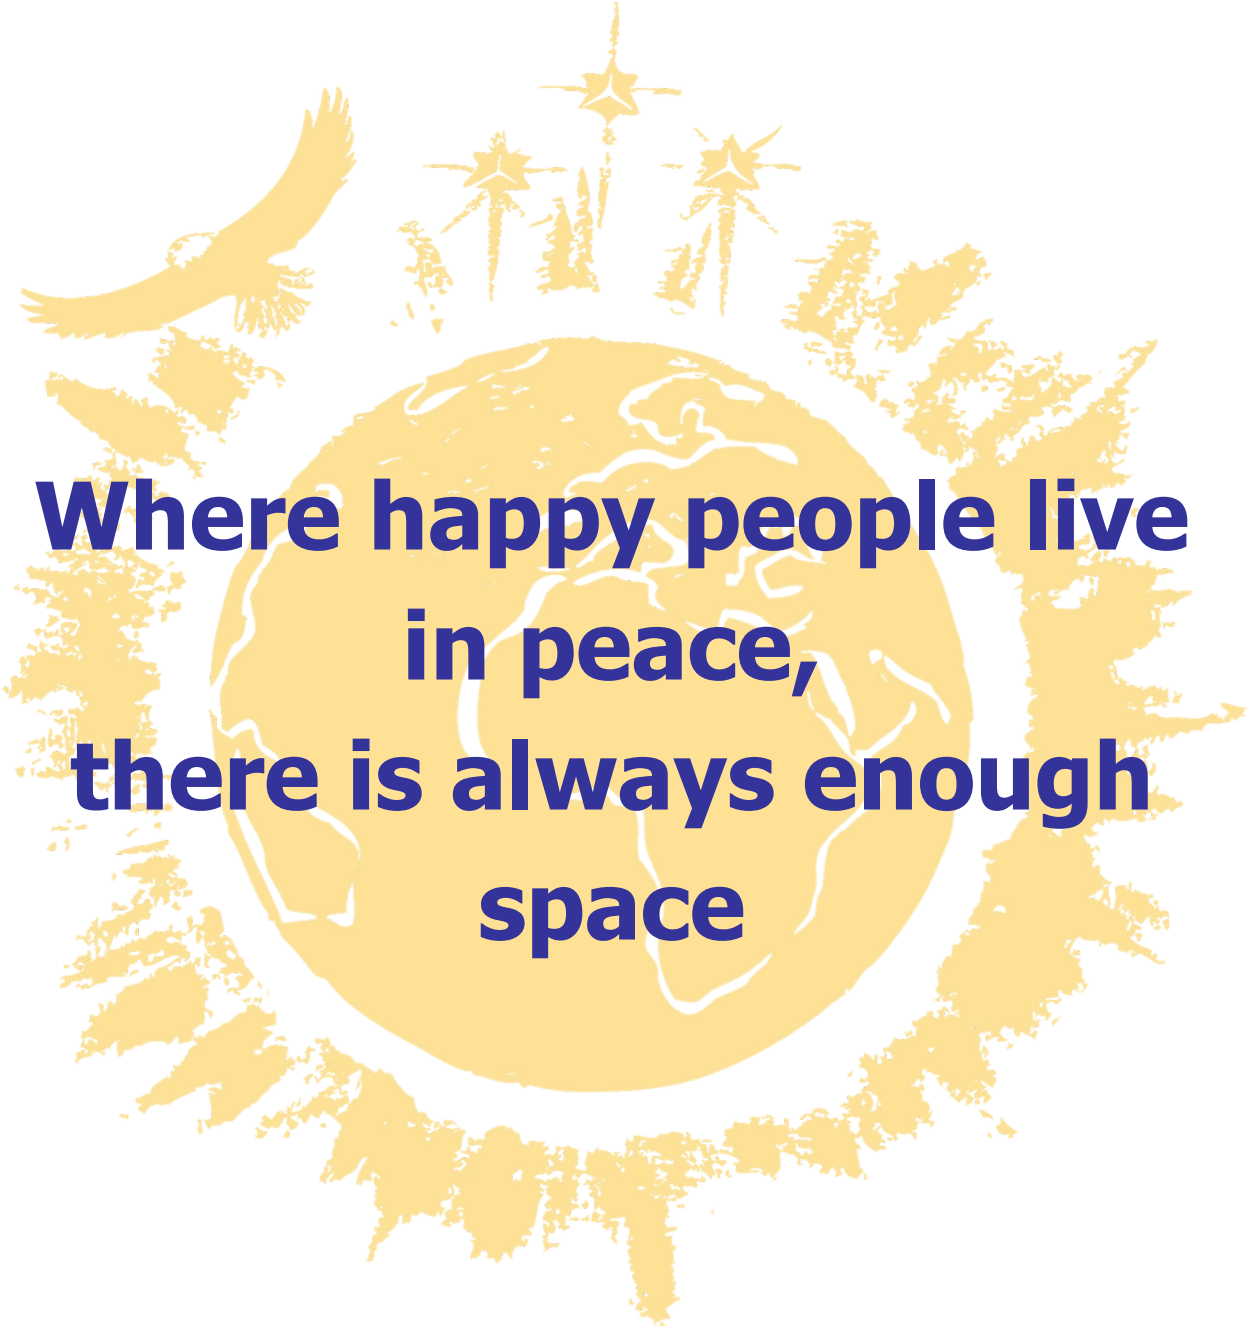

Why? The tranquility of the jungle supports the healing process and helps individuals to find harmony within themselves. Healthy nutrition, immediate contact with nature, and a specialized treatment with Peruvian medicinal plants make this place a truly unique healing center. Free from distractions such as the internet, mobile phones, television, and computers, people can recover and reconnect with themselves at the Peace Center Peru. Additionally, the center is equipped with solar panels for environmentally friendly and sustainable energy generation.

What? The Peace Center in Peru offers drug-addicted teenagers the opportunity to break free from their addictions. They are guided by Don Agustin, Peru's highest-ranking shaman. He leads the young people through ceremonies with healing plants and supports them with his extensive experience and healing knowledge to return to a healthy life. Shamans trained by Don Agustin lovingly accompany the process.

Soon, the Peace Center in Peru will fulfill its mission and serve as a sanctuary for healing. Until then, the Peace Center opens its doors to the world. Whether for seminars, retreats, or relaxation, this oasis in the heart of the Amazon rainforest welcomes personal projects and personal retreats – for a journey back to oneself.

in peace,
there is always enough

Doing Good as a Community: Help that Arrives

OUR CERTIFICATIONS:

Since July 7, 2022, the Oronos Foundation has been certified to ISO 9001 by the Swiss certification body Attestata. This management system ensures the foundation's continuous improvement through annual audits and a triennial recertification audit. The certificate is issued by the Swiss Association for Quality and Management Systems (SQS). The SQS ISO 9001 certificate is internationally recognized and globally accepted through the IQNet partnership.

NGO recognition of the Oronos Foundation and ECOSOC status by the UN in New York

We are also proud to announce that since 2023, the Oronos Foundation is officially recognized globally as an NGO.

In March 2023, Stefan Sieberer and Eva Hemm, as part of the foundation board of the Oronos Foundation, went to New York. At that time, the UN Committee on NGOs convened to review all applicants, including the Oronos Foundation. We were there when the Oronos Foundation was named! A few issues were raised and needed to be addressed. In May 2023, the recognition of the Oronos Foundation as an NGO was finally granted, and in July 2023, we also received the ECOSOC status.

One small step for the world, a giant leap for us. International recognition is a significant achievement so that we can turn our visions into reality. Together we have achieved it and together we will also master the next steps on our path. For a better world, in harmony with nature.

Doing Good as a Community: Help that Arrives

PEACE CENTERS AROUND THE WORLD:

With your support, we set up peace centers all over the world (see section “peace centers”). We train people to set up permacultures, grow GMO-free crops and play a key role in promoting international understanding. We promote cultural and sustainable exchange between countries and their natural products. Through the global networking of our peace centers, we are committed to an environmentally friendly and resource-conserving way of life. We build ovens so that people can prepare food and help homeless children to find a home and go to school. Our peace centers promote creativity and self-determination. They are places where everyone can find themselves, can discover and contribute their potential. They are places of peace and freedom.

There is so much to do in the world. Together we can make a difference.

The Board of the Foundation - With Heart and Hand for Mother Earth

MARIANNE AMSLER, November 4th, 1956, PRESIDENT

I am from Switzerland and live in Olten. This is where I grew up, where I live and where I gave birth to two wonderful sons. In various social and other professions, in various training courses, I have always found new ways to accompany people. I pass on this knowledge and wealth of experience in my work. Life has given me many gifts and made me happy. My vision is to bring heaven to earth so that love shines in everyone of us. Living from deep happiness and bringing peace into the world is my passion.

EVA HEMM, October 28th, 1973, FOUNDATION MANAGEMENT

Born and raised in Munich, mother of three wonderful children. For a long time I have worked as a childcare worker in an alternative kindergarden that I founded myself, in a nursery and a school. People, the life and the fate of people have always moved and interested me deeply. I am all the more delighted to now be able to work for them worldwide with the Oronos Foundation and to devote all my love and vitality to their cause. Life is so unique, precious and beautiful – I want to share this with everyone. I now live in Rhön for my visions and freedom.

STEFAN SIEBERER, February 15th, 1984, FOUNDATION MANAGEMENT

Traveling for peace: I have been to war zones, such as Syria and the border to North Korea, in Fukushima and Chernobyl. There are no borders for me. My love is for nature, animals and plants. And the happiness of people. I love to express my creativity – through paintings, photos and in many other ways. I see it as my mission to educate people and to accompany them into health with my love. I grew up on a small farm at an altitude of 1,000 meters in near Salzburg – to then go out into the world to make a big difference.

Pure commitment: Our foundation board works 100% on a voluntary basis.

With peace centers all over the world, we have already come much closer to this goal. However, we do not want to neglect our own homeland. We are currently looking for a suitable location for a German-speaking peace center that brings together people from Switzerland, Austria and Germany. Three countries, one center – for peaceful coexistence and the connection between people and nature in our midst.

Together we are creating a world in which not only we, but also future generations, animals and plants can live together – in peace, freedom and harmony. Through commitment and dedication, we impart new knowledge about our earth and current world events.
