**Make good things happen,  
give happiness**

True to the slogan, "Make one person happy every day, and you have changed the future of this planet", we are committed to a better world. A world in which we live together in peace, respect and dignity. In which children can play and grow. And in which the valuable resources of our planet are respected and preserved.

On 5 July 2018, the Oronos Foundation was founded by three members: Marianne Amsler, Eva Hemm and Stefan Sieberer. Irrespective of their different lifestyles, personalities and countries of origin – Germany, Austria and Switzerland – they share a common vision: They want to preserve our beautiful planet and support the animals and plants, children and people living on it. The universe is behind us.

## Projects

With your support, we build peace centres all over the world (see "Peace Centres").

We train people in establishing permaculture farms and cultivating non-GMO seeds, and in playing a decisive role in promoting intercultural understanding. We build ovens so that people can prepare food and we help homeless children to find a home. There is so much to be done in this world. Together we can make a difference.
