

## Travel to Don Agustin's camp in Peru with Natara

a group was there with Natara from 20.10.19 to 27.10.2019.

We already travelled to the camp of Don Agustin in Peru for the second time this year.

The encounter with Don Agustin, the highest ranking shaman in Peru, was a moving and intense experience.

During numerous conversations, he shared his extensive knowledge about the plants of the jungle and their healing effects, as well as his experiences with people, animals and plants.

Don Agustin has been committed to establish the camp in Yushintaita for forty years. It is the starting point for many other projects he has created for the healing and education of Peru's children. And for healing countless people from all over the world who were able to participate in the healing ceremonies. We, too, were allowed to experience two ceremonies.

For the Oronos Foundation, Yushintaita will be the first one of the envisaged 194 peace centres worldwide to become a reality.

This is located in the middle of the jungle, far away from civilisation. It will become a centre for drug-addicted young people who, through the knowledge of Don

Agustin and the great healing powers of the plants, will once again be able to lead a self-determined and happy life. Thanks to the many years of friendship between Natara and Don Agustin and the connection of these wonderful masters, this brilliant opportunity has arisen to bring this place into the future with the Oronos Foundation.

The discussions with Don Agustin and the Oronos Foundation gave rise to many common visions, ideas and projects, which we will implement together. For the future of Mother Earth and her children, animals and plants.

This journey began with an encounter and ceremony with Viejo, the son of Don Agustin. His camp, Supay Chakra, is located next to Don Agustin's school near the village of Tamshiyacu. Viejo would also like to sell his venue to the Oronos Foundation and is very happy that we will continue to meet with him.

In other words, it really is true what the masters always say: the venues find you!

**Make good things happen, give happiness**
